

VWO - Final Test Report

1. Report ID

FR_VWO_001

2. Project Name

VWO – Login & Registration Flow Testing

3. Test Summary

Testing was conducted on the Login and Registration flow of VWO to ensure proper validation, correct handling of errors, and consistent UI behaviour. Positive and negative test cases were executed.

4. Test Scope Summary

All login and registration features were tested, including:

- Valid login
- Invalid login
- Case sensitivity in email
- Field validations
- Remember Me checkbox behaviour
- Forgot Password

5. Environment

- Browser: Chrome
- OS: Windows 11
- Tools Used: Excel

6. Test Execution Summary

Test Case Type	Total	Pass	Fail
----------------	-------	------	------

Positive	7	6	1
----------	---	---	---

Negative	14	14	0
----------	----	----	---

Total	21	20	1
-------	----	----	---

Failing Test Case:

- **TC_005 – "Remember Me checkbox"**

Expected: Email should be auto-filled.

Actual: Not auto-filled.

Status: Fail

7. Defects Summary

- **Bug ID:** VWO_001

Module: Login

Issue: "Remember Me" checkbox does not autofill email on relaunch

Status: Open

8. Conclusion

Login and registration modules are functioning correctly for the majority of valid and invalid scenarios. Only 1 bug was encountered related to the Remember Me checkbox, which needs further investigation or developer attention.
